Crate Trained:	Yes		
Suitable for an Apt:	No. Big barker and can whine and cry when can't get to his people.		
Origin:	Owner surrender	Adoption Fee:	\$450

And now a few words from me:

Hello everyone, my name is Monty. As you can see, I'm a handsome gentleman. Despite my age, I'm anything but slow, especially if you happen to drop some food on the floor by accident! My favourite pastimes are sleeping under blankets and barking at anything that catches my attention. I'm not much of a cuddler; I prefer being in the room with you, but not on your lap. I always stay close to my people, especially when they decide to go to the kitchen. My foster mom says that I'm very food-motivated, whatever that means! If you're looking for a low-energy roommate to hang out with, I might be your guy.

And now a few words from my foster family:

Monty is a great little fellow. He likes to be with people; the adults in the house are his favourite and if they leave the room to go to a place he cannot access, he will bark and cry. For that reason, he would do better in a detached home (no apartments or duplexes etc). He is highly food motivated and could easily become overweight if allowed, so it will be important not to over-indulge him. He knows some commands, including "sit" and "out" (not is preferred command when it refers to having to leave the kitchen). Under a blanket is his favourite place to be and at night he is happy sleeping in his crate beside the big bed or under the covers on the big bed. He is housetrained, although on rainy days he might need some encouragement to go outside. He doesn't get too excited walking in the neighborhood, but he has enjoyed going for drives to the park, where the smells seem to entice him more. Monty is a fun little guy who will keep you entertained and while he isn't a cuddler, he has lots of love to give in his own special way. **BEING FOSTERED IN: WOODSTOCK, ON**
