And now a few words from me:

Hi, I'm Rolo, a senior pup with the cutest freckles, at least that's what people tell me! I have a heart full of energy and love. Don't let my double digits fool you, I've still got plenty of pep in my paws! I love playing fetch, going for walks, and being part of the action with my people. My foster mom says I give off "puppy vibes." She nicknamed me Superpup because of the spring I still have in my step. I'm learning to use a soft ramp to get on and off the couch safely, but honestly, I'd rather just leap right up for cuddles. My foster mom says I could hurt my back though if I don't, so I'm trying my best.

I love following my foster mom out to the garden, where I get to chase birds and squirrels or just lie down and soak up the sunshine while she tends to the veggies. I didn't even know what a bed was before I arrived here! I thought the couch was my bed, but now I love curling up on my bed, especially next to my foster dad while he works. If you let me, I love to come up for cuddles when you watch TV. I like to sleep in my crate at bedtime and my foster Mom says I sleep like a baby. When we go for walks, I bark at other dogs if they get too close, and if we stop at a patio, I might bark randomly at some people, which is just my way of saying "stranger danger!" I'm very loyal and protective of my humans. I bark at visitors but once I know they're cool I'm at ease. If you're looking for a sweet, spunky companion who'll fill your days with love, sunshine, and cuddles, I'd love to meet you.

And now a few words from my foster family:

Rolo is a joyful and loving senior with a special sparkle in his eyes. When he first arrived in foster care, he was shy and quiet, taking his time to trust and feel safe. But as the days passed, his true personality blossomed. He is a playful boy with a touch of sass, and an impressive amount of energy for a 10 years old. Though he's still learning, Rolo has mastered some important commands like sit, stay, and come, and he's quick to listen when you say "ah ah" to keep him from getting into trouble. He loves being told he is a good boy. Rolo also loves being close, especially when you're cooking, but he's happy to settle in his cozy bed or quietly relax under the table when it's dinnertime. Just be mindful with the treats, because this boy has a hearty appetite! Rolo is a devoted cuddler who will nestle up beside you and fill your heart with warmth. He prefers sharing his love with one special

person at a time and isn't shy about asking for space when he needs it. Because of this, he might do better in a calmer home without young children. When he craves your attention, he has the sweetest way of reaching out, whether it's a gentle paw on your arm or foot or standing up to say, "Hey, hello I'm here." Rolo's sweet, playful spirit and affectionate nature make him a truly wonderful companion, ready to bring love and light to his forever home.
